| Ygnacio Valley | 11/16/2015 | 2/8/2016 | 4/18/2016 | 2 weeks after school starts |

The date of determination is the date on which students become academically eligible **OR** ineligible for athletics for the following grading period. It is typically on the first or second Monday after report cards are printed. It is based on the prior grading period. Any grade changes after this date do not affect eligibility.

Examples:

Students who are ineligible for athletics during the 1st quarter because they did not achieve a 2.0 (un-weighted) GPA on their second semester report card from the previous spring may begin practicing with the team on the 1st quarter date of declaration, effectively making them eligible for the second quarter, if they receive a 2.0 on their 1st quarter report card.

Students who are eligible to compete at the beginning of the school year but do not receive an un-weighted 2.0 GPA on their first quarter report card may compete with the team until the date of declaration but may not practice or compete with the team beginning on that date.

This does not take into account any school board approved probation or waiver situations that may apply. Please refer to the NCS and CIF eligibility rules for more details. www.cifnca.org www.cifstate.org
